The Study Materials Aimed to Help You Pass the Certification Exam

Exam : **HPE0-J55**

Title : **Building HPE Storage Solutions**

Vendor : **HP**

Version : **DEMO**

NO.1 What is recommended when using NL SAS drives in an HPE 3PAR StoreServ array?

- A. Reserve 4Gb adaptive flash cache.
- B. Configure the drives with RAID 6.
- C. Enable write-through mode.
- D. Map the drives to node1.

Answer: B

NO.2 What is a benefit of thin provisioning?

- A. It removes allocated but unused space with minimal performance impact.
- B. It uses a real-time I/O engine to position data intelligently on the most appropriate tier of storage.
- C. It gives the appearance that a volume is larger than the resources that have been allocated.
- D. It stores frequently accessed files in a local cache to reduce the consumed storage space.

Answer: C

NO.3 A customer has a Windows 2016 SQL Cluster running on HPE StoreEasy 1450 storage and needs to ensure that combined throughput of all network adapters is used on all cluster nodes together.

Which HPE StoreEasy system feature helps the customer meet this requirement?

- A. SMB Multichannel
- B. Smart Pathing
- C. Multibus failover and node fault tolerance
- D. Windows Native MPIO

Answer: A

NO.4 Which resource allows you to determine valid storage connectivity configurations with HPE 3PAR StoreServ?

- A. HPE NinjaSTARS
- B. HPE OneView
- C. HPE One Config Advanced
- D. HPE SPOCK

Answer: B

NO.5 Which scenario will require a SAN administrator to enable NPIV on one or more fibre channel switches in a SAN fabric?

- A. Connection of HPE blade servers to the fabric using pass-through uplink (N) ports
- B. Direct connection of HPE blade Servers to a 3PAR array using HPE Virtual Connect uplink (N) ports in a "flat-san" configuration
- C. Connection of HPE blade servers to the fabric using HPE B-series SAN switch uplink (E) ports
- D. Connection of HPE blade servers to the fabric using HPE Virtual Connect uplink (N) ports

Answer: D

NO.6 A customer has an HPE Synergy frame with eight compute modules. They want to implement an iSCSI SAN for the servers in the Synergy frame.

Which components should you recommend? (Choose two.)

- A. HPE Image Streamer
- B. HPE D3940 Storage Module
- C. HPE StoreVirtual VSA
- D. HPE Brocade 16Gb Fibre Channel SAN Switch Module
- E. HPE StoreOnce VSA

Answer: B,C

NO.7 A customer has an HPE MSA 2052 with SAS drives. Due to performance issues, you plan to add an SSD tier to the solution.

What needs to be configured for hot data being moved to the SSD tier?

- A. Schedule tiering task to monitor volume utilization and choose SSD drives for tier 0 usage.
- B. Modify common provisioning group for SSD as tier 0.
- C. Set owning controller for SSD to a disk group other than spinning disks for more performance.
- D. Enable virtual volume Preference as Performance.

Answer: A

NO.8 You need to add a newly installed HPE 3PAR StoreServ array into HPE OneView. However, you don't see the option to add a new storage system. The only option you see is to create volumes.

What must you do to add storage systems into HPE OneView?

- A. Log on with the Storage administrator role
- B. Import and activate the HPE 3PAR certificate in the Administrator console
- C. Buy an additional HPE OneView license for HPE 3PAR StoreServ
- D. Select "Show All" view in the Menu of HPE OneView

Answer: B

NO.9 An additional drive enclosure full of property matched drives is added to expand the capacity of an HPE 3PAR StoreServ array.

Which additional process is required to ensure maximum performance and utilization of the array?

- A. The 3PAR mesh-active topology should be recalculated.
- B. An Autonomic Rebalance of the array should be performed.
- C. A 3PAR Smart SAN license should be applied to the array.
- D. The second controller node should be put into an active status.

Answer: B

NO.10 Which characteristics must you consider to properly size a Nimble AF3000 solution? (Choose two.)

- A. CPG raid set
- B. RAID level
- C. hot spare drives
- D. triple parity
- E. deduplication and compression

Answer: D,E
